

EDEN ROC GARAGE DOORS

Timber-Look Doors

Sectional Doors

Custom Doors

Established in 2002, Eden Roc Garage Doors are an independent W.A. family business, specialising in the installation of new doors, replacement of damaged doors, and repair/service work to sectional, roller and tilt doors.

Our Wangara showroom has operational sectional and roller doors on display, we also have the largest spare parts shop in Western Australia. Uniquely, we are fully independent and can therefore supply any brand of door or motor.

Attention to detail and quality service from start to finish has given us such a good reputation, that Australia's leading insurance companies trust us with all their Western Australian garage door replacement work.

The pinnacle of service, quality and value

Sectional Colorbond® Doors

Sectional garage doors are constructed from a series of hinged horizontal panels. They run in a track system that allows the door to open up vertically, through a curve and then horizontally along the ceiling.

Our sectional garage doors use the highest quality materials such as Bluescope Colorbond Steel, whisper quiet motors and heavy duty hardware to ensure your garage door will provide years of perfect operation.

Sectional garage doors are divided into five profile categories;

- Regency
- Georgian
- Mediterranean
- Settler
- Cosmopolitan

Cosmopolitan

Timber-Look Doors

Our timber-look doors have a woodgrain finish to give a look of authenticity without the price and maintenance requirements of a real timber door. Available in five popular timbertone colours;

- Caoba Colorbond®
- Classic Cedar Colorbond®
- Natural Painted Timber-Look
- Cedar Painted Timber-Look
- Jarrah Painted Timber-Look

Optional Extras

Quality windows, fully framed are available in the Regency or Georgian design range.

Optional upgrades include emergency key release, side seals, keypads, battery backup, etc.

Showroom & Parts

Visit our showroom for all the latest technology available for your garage door and motor.

A large range of replacement parts and consumables are available at our spare parts counter.
